

【特長】 ボディのアルミ化で小型・軽量

ポートサイズ(1~4、A~D) :G1/4 Oリングシール

Diagram illustrating the location of the control valve and pilot valve on a yellow excavator. The excavator is shown from a side-rear perspective. A red dashed circle highlights the control valve located on the rear of the machine's body. A red arrow points from this circle to a detailed view of the control valve assembly, labeled "コントロールバルブ" (Control Valve). Another red dashed circle highlights the pilot valve located on the side of the machine's body. A red arrow points from this circle to a detailed view of the pilot valve assembly, labeled "パイロットバルブ" (Pilot Valve). A large yellow arrow points downwards from the excavator, indicating the next step in the procedure.
